

Sensotox 2

Remote Gas Detector with Display and Relays
for flammable, toxic gases, oxygen and VOCs.

01 PRODUCT DESCRIPTION

The Sensotox 2 uses different sensor technologies to achieve a variety of configurations for flammable, toxic, oxygen gases and VOCs; can be connected as a 4-20 mA transmitter or as a ModBus RS 485 transmitter, enabling up to 256 sensors to be connected at the same central.

Optionally it also incorporates a display for showing the readings, adjustment by magnetic keyboard eliminating the need to open the box, leds and alarm relays for local action, which makes turning it into a detector-central. It can also be equipped with optional wireless modem to transmit data remotely without the need to install cables from the sensor to the control panel.

The ModBus sensor network connected to a GasVisor control unit will monitor the status of each of the sensors to indicate alarm and sensor status conditions, with a wide variety of controls, indications and options. It also has a 4-20 mA output to connect to GasVisor panels with up to 8 analog inputs, or to the user-owned control system.

02 KEY FEATURES

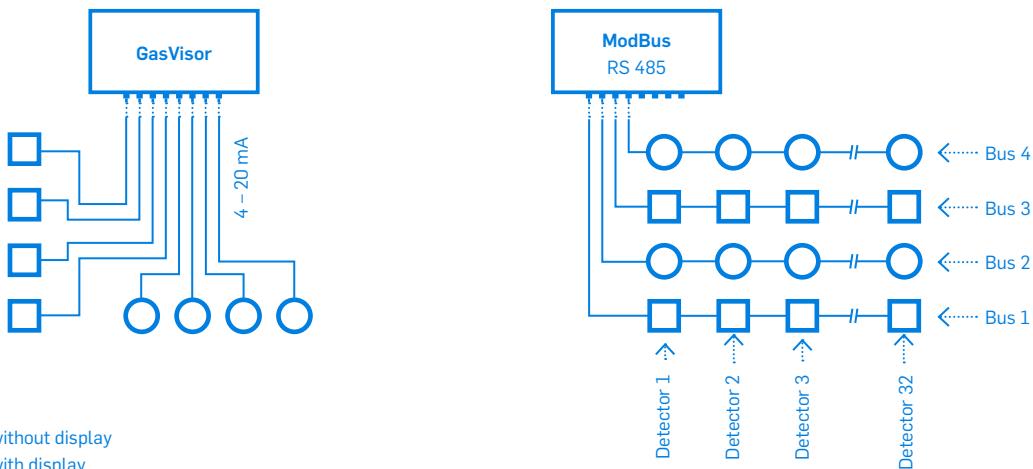

- Robust and reliable
- Flexible output options
- Catalytic, Infrared, Electrochemical Photoionization (PID) sensor options
- Explosion proof case
- ATEX II 2G Ex db IIC T6 Gb
- Two alarm relays*
- Non-intrusive one-man calibration with magnets*
- Backlight display on alarm*
- 4-20 mA analog output
- ModBus RS485 digital output
- Addressable or independent
- Wireless modem 868MHz*
- Datalogging capacity as it forms part of a system with GasVisor and SenView software
- Correction factors for the LEL sensor

03 TECHNICAL SPECIFICATIONS

Power Supply	12 – 30 Vdc
Outputs	4 – 20 mA (3 wires) and ModBus RS 485 (4 wires) Low alarm relay and High alarm 1A @ 24V Relays inhibition during adjustment
Display	4-digit LCD, backlit Working: Green LED Alarm: Red LED and status warning on display Fault: Orange LED and status warning on display
Box material	Cast aluminum / Stainless steel
Coating	Chemical resistant epoxy paint
Protection	IP - 68
Cable Entry	2 x ½" NPT
Weight	1,6 kg
Temperature	-10°C to +60°C (-20°C to +60°C for blind units)
Humidity	0 to 99% RH (non-condensation)
Certification	II 2G Ex db IIC T6 Gb / II 2D Ex tb IIIC T85°C Db
